

To: Parents

From: Sports Director – Galena ARC

Parents: I just wanted to give you an update on our summer sports offerings. I have been in communication with directors from both Wisconsin and Illinois about baseball/softball. We are still playing the “Waiting Game” to see how much will open up in our communities and when that might be. Right now, we are still looking at playing some ball in the month of July and maybe into early August. But again, that will depend on how the states are opening up with this virus.

We will put information on our website as the time passes and we have more information. Just know we are still looking to do what we can if we get the “All Safe” word from the State and Dept. of Health and Wellness.

Also, we have not completely given up hope for the 4<sup>th</sup> of July Community day..... but of course it will depend on how things are going for that as well.

Stay safe and we will keep our communications with you as often as we can.....

Thanks
